

## TRANSPORT BACKPACK for VACUUM MATTRESSES

For compact and safe **transport** and protected **storage** of a **vacuum mattress 80** or **vacuum mattress 60** and a **vacuum pump**.

The vacuum mattress is stored **rolled up** in the transport backpack and fixed with the drawstring.

Equipped with **shoulder straps** and a **hip belt** for easy transport on the back.

The lid flap protects the vacuum mattress from external influences.

Made of **extremely tear-resistant, air- and waterproof special perlon fabric**, the contents are also protected from sharp objects during transport or storage.
